“Debutante Sale I”

December 11, 2010

1:00 PM

Welcome to the farm !! From the humble beginning of buying the first two heifers at the Royal Agricultural Winter Fair in November 1999, we have grown, and grown we have. The farm is set at the northern edge of the Peel Plain on some of Canada's most productive farm land and nestled in the rolling hills of Caledon. The original Taylor homestead has been transformed into one of Canada's leading breeding farms for the Limousin breed. With fertile lands and crystal clean waters this setting is ideal to produce the highest of quality Limousin cattle ever offered for your approval. Through diligent and stringent selection, the highest levels of health protocol, thoughtful bloodline decisions and the earnest will to produce the best progeny possible; the stunning selection offered here is second to none. Blood, sweat, and yes, a few tears, have been shed over the years in an effort to exemplify the excellence of this Limousin herd.

The best of the best are being offered, such as Ivy's Under Pressure, which epitomizes all of the finest qualities of the Limousin breed. His flawless structure and excellent performance in the breeding pens make him simply one of the finest bulls available. Add that to the heifers from the famed sires Andrews Rawhide, Highland Newsmaker, Polled Reflection, Highland Nike and Y2K Smokestone 51S, numerous calves and two year olds, the pedigrees available are sure to boost the Limousin breed. Ivy's Underpressure is sure a bull that you will hear about for years and years to come.

As you all know, cattle farming at this level is a very hands-on business where each and every day requires the dedication to put your animals before yourself. Midnight calving, the constant supervision to ensure health and well-being of each and every member of the herd, the strict feeding protocols to optimize performance - all these things we do for not only ourselves and our animals, but also for the breed and industry as a whole that we are all part of.

The future of agriculture is here, the cattle industry is on the upswing with calves coming off cows at record setting prices. We look forward to continuing to add to the cow herd, increase the feedlot capacity, increase the acreage of crops that we grow and move into some new facets of the agriculture industry . Cash cropping, poultry operations and a retail outlet are things that I look forward to adding value to the farm in the coming years. The light bulb for agriculture has never been brighter and I am sure not going to let the light get away.

I would like to thank you for showing interest in my herd and I look forward to working with you to continue to promote and speak of the virtues of the Limousin breed.

You cannot afford to miss this offering on December 11th, 2010. We await your inspection and look forward to working with you to improve your herd with these fine representatives of the Limousin Breed.

A Welcome From Venture

When the world was about to crash and burn and the apprehension of what was going to happen at the stroke of midnight 1999, a new venture was in the works and Y2K Limousin was formed. I have had the pleasure of working closely with Robert as he started and nurtured this program from the fledgling beginning to where it is today. Not without bumps in the path, but always with attention to the focus that he started with, I believe that you are about to witness the unfolding of one of the forces of the industry. Attention to detail in the breeding program has been a focus of Robert's and has carried forth to create what we are offering here for your appraisal.

With the nucleus of the program centered around the herd of Cedar Patch cows and the nucleus of proven Cressman females, the stage was set to work from. Key additions from some of the Nation's leading programs have built the genetic strength that you see here today. "THE DEBUTANTE" is the inaugural opening of the herd for appraisal, after 10 years of staging to develop this genetic nursery, and I can assure you that only the front pasture kind of cows have made the cut for this event. You will witness how the consistency of the program is by noting the packages of females presented. The Fall calving pairs that are on offer are simply powerful; some of the strongest cows genetically and phenotypic of the breed are represented. The cows are intentionally not bred back at sale time, so that you the purchaser, can choose where you want them calving; be it in the fall or spring. Robert would be happy to keep them and expose them to his new breeding machine, "Under Pressure" for a fall calf if you wish. Please visit with us prior to the sale if you have any questions about this phenomenal offer.

Speaking of Under Pressure we are also extremely pleased for you to add this unique genetic combination to your breeding pens. Homozygous polled, flawless structure, and he presents a combination of some of the Nation's most influential cow families and breed leading performance. Under Pressure is set to add value to his progeny. On offer will be one half interest and possible shared possession. Please contact us prior to the sale to discuss the exciting opportunity offered here.

The spring calving bred heifers which are all exposed to Under Pressure will make for welcome additions come spring for you. Calving ease is expected from him while keeping enough growth and style in them to make the progeny valuable additions.

Next is the great set of fall open yearlings on offer. They are all $\frac{1}{2}$ or $\frac{3}{4}$ sibs and are as strong a set of heifers that you will find any where in the land. Place them in either the fall program or let them have a distinct advantage in the spring pastures, these heifers will excel wherever.

I am extremely pleased to be working on this sale with my long time friends Billy and Juanita Elmhirst and with Robert as he sets out to showcase his last eleven years of tireless dedication to the Limousin breed. If any of us on the sales staff can be of any assistance either before the sale or help you during sale day, PLEASE do not hesitate to call as we will take care of your needs with efficiency and professionalism.

We at Venture Livestock wish all the very best for this Festive Season and look forward to your visit either at the sale or anytime prior. Thank you for your consideration and.....

Kind Regards
Wayne Burgess

Happy Holidays

Cataloguing Cow/Calf Pairs and Progeny

The catalogue is going by cow families. We have printed the pedigree of the cow. The Sire, Tattoo, Registration #, will be listed for her progeny.

Terms and Conditions

Terms

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after the settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of dispute, the auctioneer's decision is final. Announcements from the auction block will take precedence over the printed matter in sale catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Breeder's Guarantee

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Limousin Association with regard to health, freedom from defects and both reproductive and specific genetic unsoundness.

Liabilities

All persons attend the sale at their own risk. Y2K and their consignors assume no liability, legal or otherwise, for any accidents that occur.

Insurance

We strongly recommend that insurance is purchased for full value.

Certificate of Registry

Each animal will carry papers issued by the Canadian Limousin Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Health

All animals in the sale have met all necessary health requirements.

Bids

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the consignors, auctioneer or sales staff & management. Bids must be received in sufficient time prior to the sale.

Errors

All announcements at sale time, written or oral, supercede any written material in the catalogue.

When we were searching for a lead off lot to compliment the powerful female offering we decided to share the wealth wrapped in this massively designed and pedigreed Canadian bred and Canadian owned herdsire. We are amazed with the development of Under Pressure since we discovered him at Agribition one year ago. He had served as a herd sire prior to his show debut then came home to Y2K where he went to work; and his progeny is at the side of the feature cow pairs in this sale. Plus he is the service sire to most of the bred heifers in the sale.

When you study the pedigree, first note the maternal strengths, both top and bottom side of the paper - Near Perfect (and she is), Primadonna, and Hearbeat; Now add in the power of the herdsires Shazam (siring the winning and growing kind), Klint, Litigator, and Y2K Solution the surprise issue is gone! And +33 for docility!!!!

Power in numbers, power in blood and power in structure!!!!

Selling will be a limited number of semen packages with a never again offered guarantee plus a shared possession in this breeding giant. Call Wayne or Billy to get in on this special "ONE TIME OFFER".

RBN 707T is a young and exciting female from the top tier of the Y2K Program. This perfectly conformed female has as much breeding potential as any Limousin female available this year. The three year old female has a royal pedigree from the start and will not disappoint. Y2K Trix 707T is a smooth polled female with excellent udder attachment and the breeding potential to replicate her finest qualities with maternal power. The daughters of this famous and dependable line are among the breed's most coveted. Cressman Harvest Moon was the lead off female at the Cressman Cattle Company Dispersal - Y2K was fortunate to add this flawless female to the herd. Sells open.

Y2K Karisma - CWA Champion Female

33R & Progeny

Y2K Rivendell 33R - One of the most valued members of the Y2K cow herd. The daughter of EXLR Latigo 29M who has achieved much success for the Express Ranches program and Highland Stock Farms, Alberta. Highland Stock Farms and Y2K Land and Cattle Company purchased the Canadian Semen rights for EXLR Latigo 29M. Countless members of this excellent cow family have contributed greatly to the expansion and improvement of the industry. Y2K Rivendell 33R is a smooth polled female with astounding udder attachment. With her overall body mass and volume, she is a perfect female to mate to most any bull in the industry. She is one of the dominant females in the Y2K herd and she sells in the prime of her productive life. A female of this magnitude can direct and anchor any progressive Limousin program. Sells Open.

Sire: EAFF Krug's Gold Card

Talk about a cow family. This is one of the feature debutants of the sale. Sired by the breed leading outcross sire Nike, this cow has performance written all over her. We are also offering as lot 10b and 10c her two heifers. This full blood female has been a prolific producer here at Y2K. She is a very well balanced cow for which we are proud of producing. A daughter of the HC Vanessa female that gathered lots of ribbons on the show road. Vanessa reigned as Reserve Grand Female at the Royal Agricultural Winter Fair in 2000

Sells with a structurally correct heifer sired by the powerful EAFF Krug's Gold Card. Sells open.

Top Quality Canadian Beef

Welcome:

From all of us at After Hours Limousin we would like to thank Robert for this chance to introduce these young females into society. We have selected from the top of our heifer calves, and are confident that these heifers will make great Jr. prospects, but most importantly great, easy doing cows. At After Hours Limousin we continue to breed seed stock that make good replacement females and quality breeding bulls. We are located at Keady which is 15 minutes south west of Owen Sound. Feel free to stop in anytime to view the sale offering or give us a call. See you sale day.
