RAWF 2010 Hereford & Simmental Premier Breeder

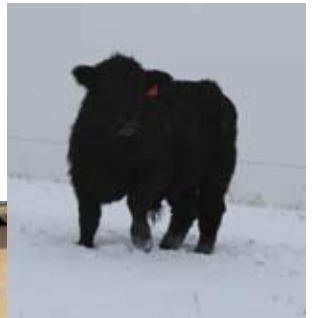

Welcome,

The Source for Success Bull Sale offers the very best genetics available in 4 different breeds from 6 of central Ontario's leading purebred herds. These bulls have all been grown out to maximize their performance while not being over conditioned. They are healthy, vaccinated and have been treated for parasites. The breeders are all respected in their breeds and will stand behind these bulls to insure you have a valuable breeding piece to increase the profit of your herd.

You will find a number of options here to fit your operation. Calving ease bulls are available in all breeds as well as bulls with extra age. The Simmental bulls offer some monster performance numbers to add serious poundage. The Hereford bulls are some of the highest quality, strongest pedigreed bulls available anywhere. Our Limousin bulls are all good birth weight bulls and bring that Limo marketability with them and include a Royal winner. The white bulls are all french influenced and loaded with predictable genetics to add muscle and quality.

We welcome your appraisal on sale day. As purebred breeders it is our job to research genetics that add value and then pass them onto the commercial industry in the form of herd bulls to create profit and eliminate risk. The beef industry is now exciting, thriving and profitable make the most of it with a new power packed herd bull from a reputable breeder. Look forward to a stellar set of bulls on the 26th and feel free to call for more information on the progress of the bulls. We'll have the coffee pot on, a stack of donuts and a couple pots of chili waiting, see you sale day.

Billy

Xtra power, pounds and performance in this sale feature. Check his incredible stats for weaning and yearling weight and then consider he was born to a 21 month old heifer unassisted at just 88lbs. If you need a bull to cover both the first calvers and cows here is one of the unique spread bulls available to do just that. Super disposition is a bonus here and he is halterbroke as 8 year old Katie showed him to Champion bull a number of times last year. Blaze faced, low BW, huge growth numbers and highly maternal this is the new Simmental!

On pasture with dam

This 7/8 bull was the heaviest weaning weight off grass last summer at 940lbs. His extra length and shape over his top is where his pounds really weigh up and I would expect tremendous carcass cattle out of this bull. He is a real farm favorite with his pleasing profile and nice blaze. From a fleckvieh influenced cow he'll sire milky daughters to add as replacements and is the kind of bull that will work on any cross. Huge weaning weight here for more pounds and more dollars.

Consigned by: INDIAN RIVER CATTLE COMPANY

This guy will blow you away with muscle and power. Many generations polled with a homozygous sire, 12X is likely the same. This growthy calf has always pounded the scales and he could sure add value to a smaller statured cowherd. His dam has mothered 2 herdbulls for us with them now doing great jobs for Glenn Darling in Peterborough and Don Briand at Baileboro. Another of the kids pets he is great natured and easy to handle. If you are in the business to make money here is the answer to add weight, quality and value.

This Whopper comes at you with more age and maturity to cover more cows this breeding season. An impressive bold sprung, muscular, big nuttled fellow with an pronounced herdbull look. He is out of a first calf heifer that had this calf on grass with zero assistance until we weaned him in the spring. He was undefeated at last summers shows and was named Champion Bull at the strong Lindsay Exhibition qualifying him for the Agribition Supreme Drive. He also was a class winner at the Royal Winter Fair. Generations polled, out of breed leading genetics, easy calving and high quality.

This uniquely bred bull offers some tremendous genetic predictability for both performance and maternal strength. Out of a first calf heifer that was the \$6500 high seller at the famed Spring Creek female sale he is a great candidate for the heifer pen. A deep polled and black pedigree make him a good candidate to be homozygous both ways. Super quiet and halterbroke you'll be pushing him out of your way sale day and trust me he's a good chunk to push. Consigned by: BLACK RIVER FARMS, SUTTON, ON

2007 Hi Seller and Junior Champion at Agribition in Regina and the Royal

Sold in 2010 to Roger Maloney and Reserve Grand Bull at the 2010 Royal

Interesting genetic package available here that is all but guaranteed to be very milky and productive for many years. An own daughter of the performance sire Starquest, her dam goes back to a good Red Quorum cow who is also the dam of the impressive lot 2 bull. Moderate in her stature she is complete in her kind and is built to be problem free and profitable.
